

FutureMap

Navigating the dynamics of globalization

Our Approach

FutureMap provides data-driven scenario based planning and strategic advisory for clients navigating the dynamics of globalization.

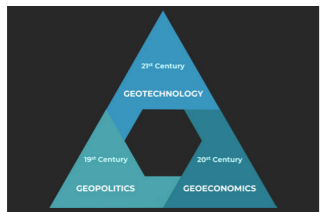

We marry rigorous data analysis, sophisticated scenarios, and cutting-edge mapping to generate foresight for confident decision-making.

2

Applied Data Science

We use advanced statistical methods and machine learning to identify salient factors across the political, economic, social, environmental and technological domains, giving clients insight into potential risks and opportunities across

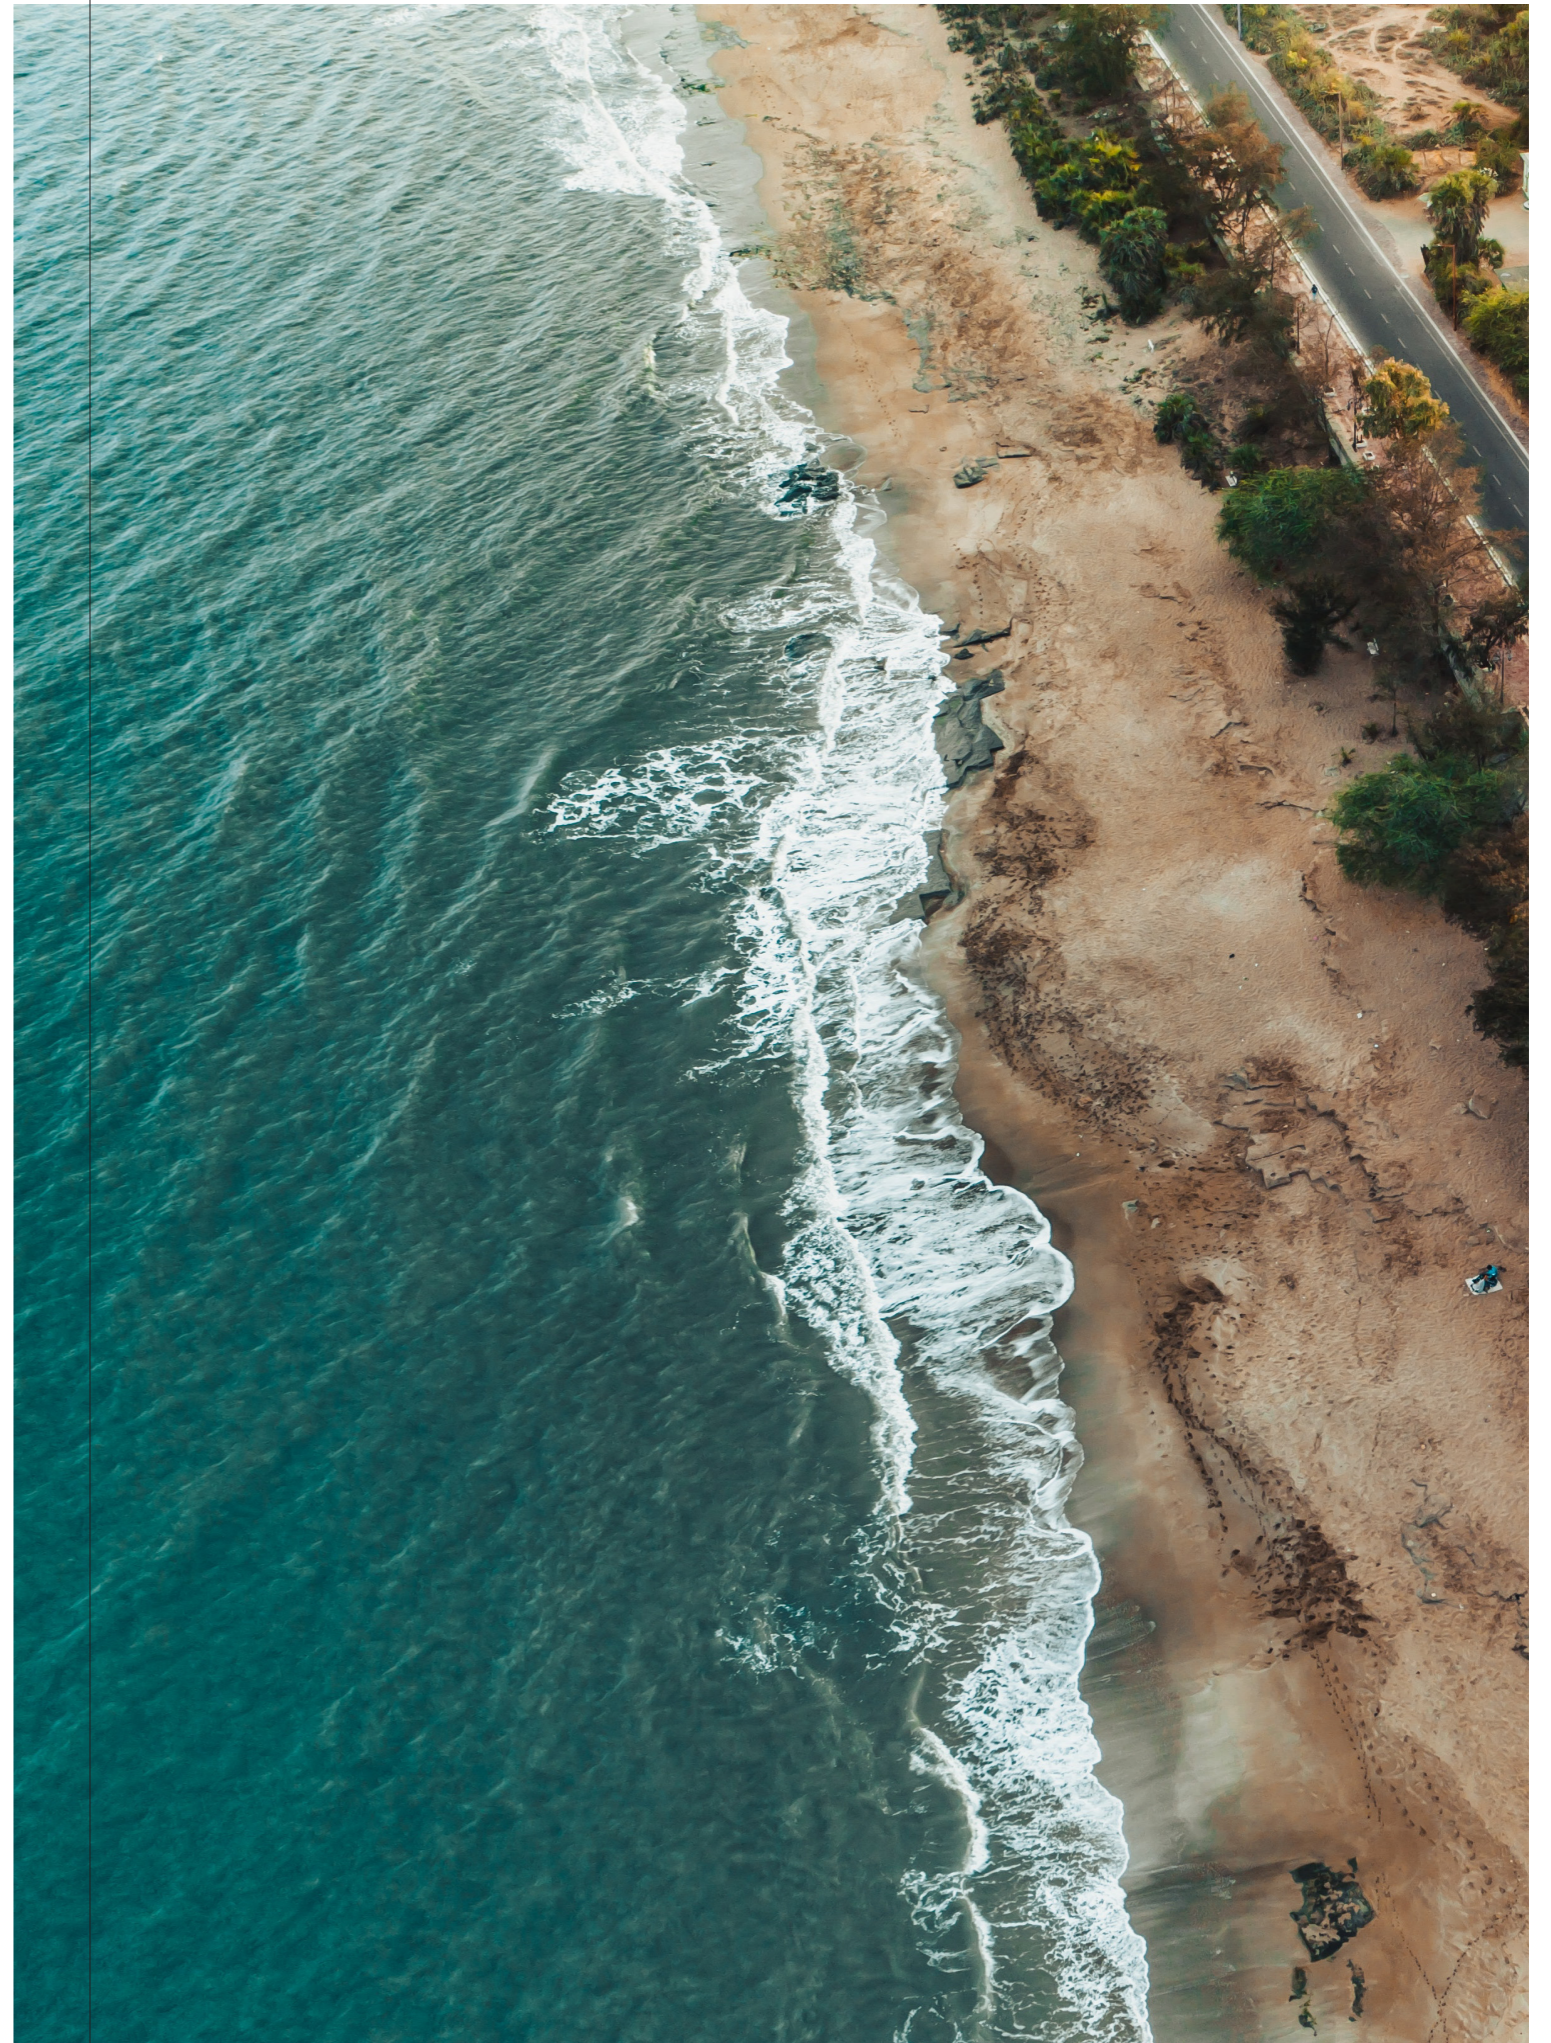

Scenario Toolkit

We create complex and realistic scenarios based on methodologies such as trend forecasting, agent-based modeling, systems analysis, crowd-sourcing, and red teaming, helping clients choose the path of maximum innovation and growth.

Digital Mapping Suite

We leverage data and scenarios to generate bespoke, animated maps, allowing clients to visualize the market landscape and navigate their strategic plans, backed by briefings and presentations that guide decision-making.

3

Products & Services

4

Belt & Road Heat Map

FutureMap offers an up-to-the-minute analysis of how Eurasia's largest infrastructure investment program, the Belt & Road Initiative (BRI), is driving growth, reforms, and investment opportunities across the cities and sectors of high-potential economies in Central and Southeast Asia.

Enhanced Market Strategy

FutureMap provides timely assessments of national and regional political, economic, social, environmental and technological risk factors. Our analysis of regulatory shifts, M&A opportunities, sectoral diversification trends, and joint venture partners enhances client market entry and expansion plans.

5

Climate Alpha

FutureMap has developed a comprehensive data forecasting suite to identify the locations with the highest likelihood of land value appreciation. ClimateAlpha.ai provides investors, property developers, and state and municipal authorities guidance on where to build for the population of tomorrow.

Scenarios & Strategy

FutureMap builds detailed interdisciplinary scenarios designed to inform public and private sector decision-makers over multiple time horizons. Our strategic advisory service guides national, provincial, and city governments seeking to elevate their role in global value chains, attract investment, and master-plan new infrastructure projects and smart cities.

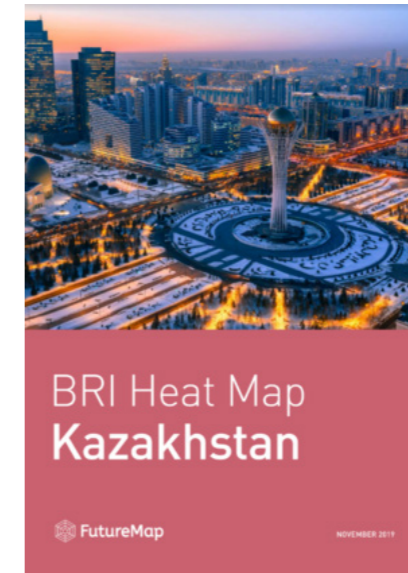

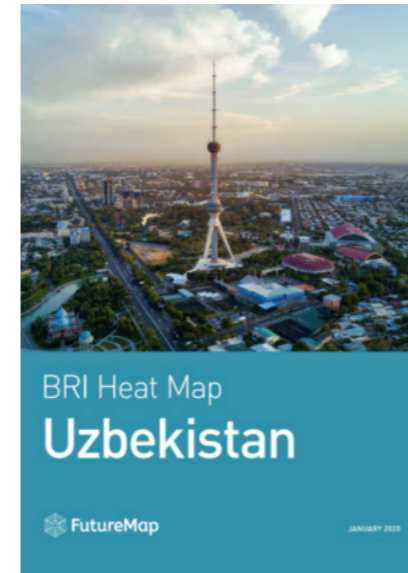

+ **Product & Services**

Belt & Road Heat Map

FutureMap's integrated team of economic analysts, risk management experts, and investment professionals provides you with actionable guidance to effectively navigate the new opportunities emerging across Eurasia's complex landscape. Our network of partners, analysts, and associates has rich knowledge and insight into many regional markets, allowing us to customize the Belt & Road Heat Map to client needs.

FutureMap has constructed a custom database of more than 100 quantitative indicators covering fiscal, monetary, trade, investment, social, and sectoral data at the national, provincial, and city level. We combine advanced statistical methods with qualitative analysis of the geopolitical and market environment to provide a detailed understanding of opportunities in financial markets and privatization, infrastructure and high-growth sectors, and how to approach them at the firm level. We also deliver rich data visualization of economic forecasts, infrastructure networks, and other cross-border flows.

6

+

FutureMap offers clients regularly updated and actionable analysis of new patterns of growth emerging within and across key markets associated with the Belt & Road Initiative (BRI).

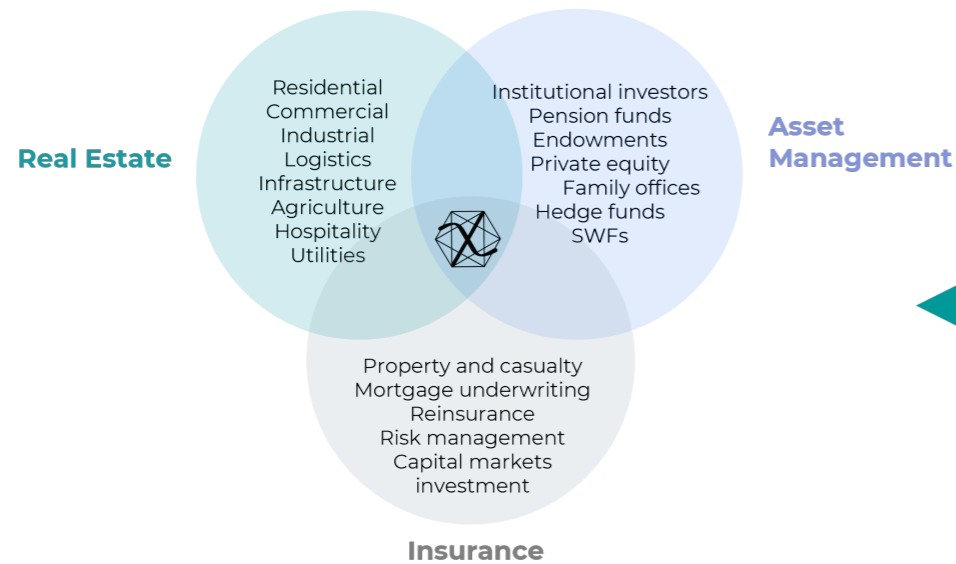

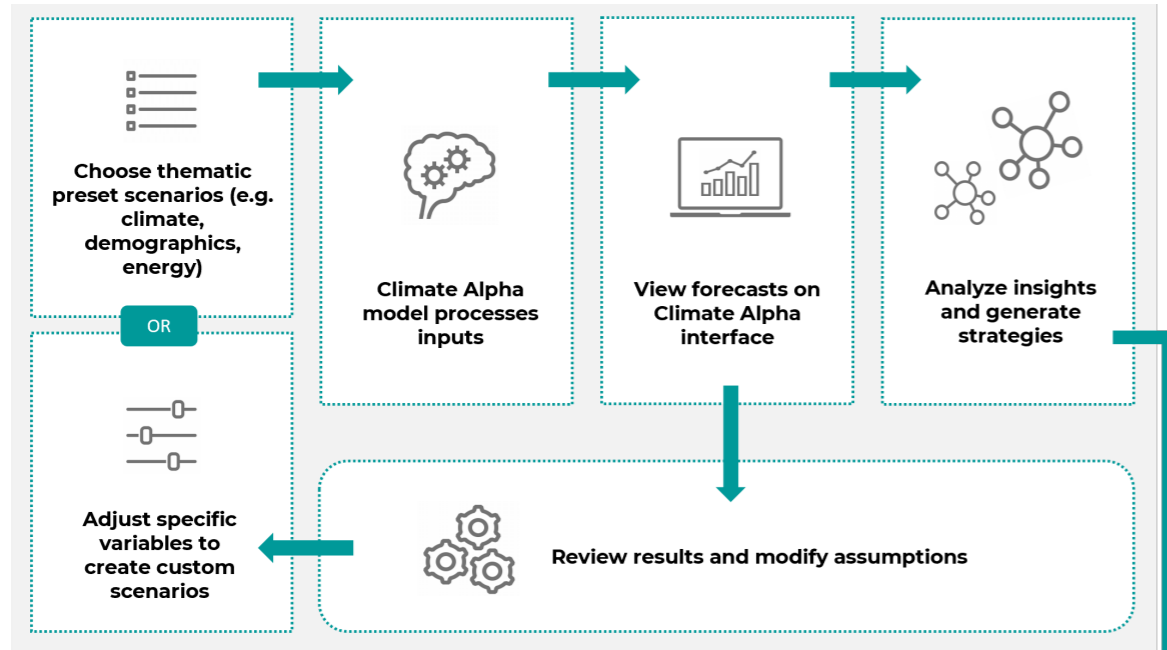

7

Climate Alpha

FutureMap has incubated Climate Alpha, an AI-driven advisory service that leverages comprehensive data streams and proprietary machine learning algorithms to produce robust price forecasts for real estate assets under diverse scenarios. Climate Alpha supports clients in steering investments into future-proof assets.
